GitHub: <https://github.com/ThatSkiPatroller>

Full stack web developer with a bachelor's in biology and certificate in web development from The University of Texas at Austin. Experience working with development teams utilizing the scrum and agile framework on creative, strategic, and technical levels. Fast decision making and teamwork are core skill I have taken from my work as a first responder and utilize in software development. Seeking a full-time position where I can expand my knowledge of different technologies.

## TECHNICAL SKILLS

**Languages:** JavaScript ES6+, CSS3, HTML5, SQL, NoSQL

**Applications:** GitHub, MongoDB, MySQL, Robo 3T, Insomnia

**Tools:** React, Express, Node, Handlebars, jQuery, Sequelize, Jest, Mongoose

## PROJECTS

**AutoWizard** | <https://github.com/ThatSkiPatroller/AutoMaintenance> | <https://obscure-cove-65281.herokuapp.com/>

- Summary: This application allows the user to make car maintenance appointments as well as save vehicles and see maintenance recommendations
- Role: Team member with two other developers, focus on backend routing, database connection / queries and frontend design
- Tools: HTML, CSS, JavaScript, React, MongoDB, Mongoose ORM, Material UI, GoogleFonts, Express, Node.js, axios, Heroku

**Weather Tunes** | <https://github.com/wmcccone/WeatherTunes> | <https://wmcccone.github.io/WeatherTunes/>

- Summary: Weather Tunes allows the user to search for their city and get a curated playlist based on the current weather in their area as well as the current temperature, humidity and windspeed. Checkout my animations for rain and snow!
- Role: Team member with two other developers, focus on frontend design, animations, and weather data
- Tools: HTML, CSS, JavaScript, Materialize, GoogleFonts, YouTube API, OpenWeatherMap

**Git Jokes** | <https://github.com/ashleyhayjin/projectTwo> | <http://limitless-bayou-89275.herokuapp.com/>

- Summary: Git Jokes is a twitter knockoff joke platform where users can post jokes as well as browse from other users or by category
- Role: Team member with two other developers, focus on Twitter API and backend
- Tools: Express, Express Handlebars, MySQL2, Sequelize, Heroku, NPM Twitter, Twitter API, Node.js

## EXPERIENCE

### **National Ski Patrol Ski Apache**

**2016-Present  
Ruidoso, NM**

Seasonal first responder and Emergency Care Technician for the National Ski Patrol

Key Accomplishments:

- National Ski Patrol's Rookie of the Year Award 2016
- Worked as a team with a great patrol unit to perform emergency evacs and on scene medical care
- Consistently reduced the number of patients in the patrol room at one time through triage and assessing emergencies
- Decreased the average time for getting patient down the mountain and into care

### **Pineywoods Obstetrics and Gynecology Office Assistant**

**2020-2021  
Lufkin, TX**

Worked to help get patients checked in, filled in for sick staff members and made sure we were fully implementing all current COVID guidelines for medical practices

Key Accomplishments:

- Worked with eClinical's healthcare software to add, check, and update patient information
- Maintained the patient schedule
- Increased check-in / check-out rate and reduced the amount of time nurses had to spend on lab work

## EDUCATION

**Bachelor of Arts, Biology** – The University of Texas at Austin

Austin, Tx

**Certificate, Full Stack Web Development** – The University of Texas

Austin, Tx

**Outdoor Emergency Care Technician Certification** – National Ski Patrol

Ruidoso, NM
